

Osama Shehta Fathi

Front-End Developer

Egypt | osama.shehtafathi@gmail.com | +201068864393 | LinkedIn | GitHub | Portfolio

OBJECTIVE

- Passionate **Frontend Developer** with a strong foundation in **React.js, Next.js, and modern web technologies**. Skilled in building **responsive, user-friendly applications** with a focus on performance and accessibility. Eager to contribute to innovative projects and collaborate in dynamic environments.

Technologies and Skills

- **Programming Languages:** C, JavaScript (ES6+), TypeScript
- **Frontend Development:** React.js, Next.js, HTML5, CSS3, SASS, Bootstrap, Tailwind CSS, jQuery, Redux, Redux Toolkit, React-Hook-Form, Formik, Yup, MUI, Shadcn, RESTful APIs, Axios, TanStack Query, React Context API
- **Tools:** Git, GitHub, GitLab, Jira, ClickUp, Slack, Agile, Figma, Adobe XD

Work Experience

Frontend Developer – Al-Masader Al-Raqmiyah (Feb 2025 – Present)

- Developed and maintained multiple websites using **React.js** and **Next.js**.
- Optimized website performance, reducing load times and enhancing UX.
- Implemented responsive and accessible UI designs for cross-device compatibility.
- Integrated RESTful APIs and managed state using Redux Toolkit.
- Collaborated with designers and backend developers to deliver high-quality web applications.

Frontend Intern – Route Academy (Sep 2024 – Feb 2025)

- Built dynamic and responsive web applications.
- Developed reusable and optimized UI components for scalability.
- Integrated RESTful APIs, enhancing UX with smooth data interactions.
- Implemented state management using Redux Toolkit and TanStack Query.
- Optimized performance, ensuring fast load times and seamless navigation.

PROJECTS

Cartify

- Technologies Used: React, Tailwind CSS, Axios, Formik, Yup, React Router Dom, TanStack Query.
- A fully functional e-commerce web application built with React, Tailwind CSS, React Router Dom, Axios, Tanstack query, Formik, Yup, and various libraries to provide a seamless shopping experience. The app includes user authentication, product browsing, filtering, cart management, order placement, and checkout functionality.
- **Demo | Code**

Portfolio

- Technologies Used: React, Tailwind CSS, Redux Toolkit.
- This portfolio, built using React, Tailwind CSS, and Redux Toolkit, serves as a professional showcase of my skills, experience, and projects. The application features a dynamic and responsive design.
- **Demo | Code**

SwiftBuy

- Technologies Used: React, Tailwind CSS, Redux Toolkit, API.
- Built using React, Redux Toolkit, and Tailwind CSS, this application features a dynamic and responsive design. It enables users to browse products, manage their cart, and switch between light and dark modes effortlessly.
- **Demo | Code**

Game Over

- Technologies Used: HTML, CSS, Bootstrap, JavaScript, OOP, API.
- An interactive and user-friendly Games-OOP application built with HTML, CSS, and JavaScript. This project uses the Free to Play Games Database API to fetch game details based on the user's selected genre.
- **Demo | Code**

Weather Forecast

- Technologies Used: HTML, CSS, Bootstrap, JavaScript, API.
- An innovative and user-friendly Weather Forecast application built with HTML, CSS, and JavaScript. This project fetches real-time weather data using the WeatherAPI and displays current conditions and forecasts for any city or location.
- **Demo | Code**

EDUCATION

Faculty of Engineering (2019 - 2024)

Major: Computer and System Engineering
